

Spreader Bar for Forklift

Forklift Spreader Bars - ELME has been proudly operating ever since the year 1974, becoming the biggest independent spreader business in the world. They are a devoted producer of spreaders utilized for a lot of several applications such as the handling of containers, swap bodies and trailers.

Engineering is done in-house by means of utilizing all the newest CAD systems and FEM tools. The ELME company currently has over 125 staff members. Their spreaders are supplied to reach lift trucks, gantry, quayside, ship-to-shore cranes, stackers and straddle carriers around the globe.

The ELME product range offers spreaders meant for different trailer and container handling operations. Several of their inventory include: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers and a huge variety of attachments.

Manufacturing and production of ELME products are developed in highly automated purpose designed factory. In the year 2008, they created one thousand one hundred fifty spreaders by making use of quality components to ensure dependability and high standards. Major features of ELME include design simplicity, market response and ground-breaking modular spreader concept.
