

Attachment for Sweeper

Sweeper Attachments - Forklifts made by AUSA, offer absolute functionality and are well known for their highly modular, ergonomic and compact design. They offer stability and versatility while handling difficult or heavy loads on the jobsite, while being extremely safe to drive. With respect to other lift trucks, AUSA units have a great diameter of their wheels which helps to ensure favorable load suspension in the cabin and in the forks. This allows the forklift to generate an optimum working productivity over variable and uneven surfaces.

AUSA company head office is located in Manresa, Spain which is located in the interior of the province of Barcelona. The production plant is likewise at this site and features a total surface area of more than 64,000 square meters. AUSA has subsidiaries situated in the Germany, Madrid, France, Florida, China and the UK. The business exports more than sixty percent of the equipment they producer and advertises its products throughout two hundred twenty five distributors all over 70 countries.

Each and every forklift made by AUSA is offered outfitted with their automatic hydrostatic transmission. This gives automatic breaking in deceleration and accuracy in movement of the lift truck giving an added level of productivity and safety. The hydrostatic transmission allows the individual operating it to rapidly adapt to the forklift that is significant whenever the load is really not easy to handle and whenever terrain situations are difficult.

The operator cabin on the AUSA lift truck is the only one offered that is frontal-folded to allow easy and efficient access for periodical maintenance. Highly modular, these cabins are obtainable semi-closed, soundproof closed or open. For northern climates heated cabs are an alternative, and, air conditioning is integrated in a back post of the cabin. A wide range of grips, attachments and tire widths are also available so as to fit whichever of the lift truck units.

A world leader in compact machine, AUSA also specializes in urban sweepers, site dumpers and tool carrier vehicles. With sales and service all around seventy countries within 5 continents and more than 200 sales depots globally, AUSA is an industry leader.
